DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

Species A: Figures 1-6

Species B: Figure 7

Species C: Figure 8

Species D: Figure 10

Species E: Figure 11

Species F: Figures 15-17

Species G: Figures 18-23

Species H: Figure 24

Species I: Figure 27

Species J: Figure 30

Species K: Figure 33

Species L: Figure 35

Species M: Figure 36

Species N: Figure 37

Species O: Figure 38

Species P: Figure 40

Species Q: Figure 48

Species R: Figure 49

Spinal Implant

Species A: Embodied in claim 1 and claim 61

Species B: Embodied in claim 8 and claim 54

Species C: Embodied in claim 15

2. The species are independent or distinct because they represent patentably distinct structural limitations.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
